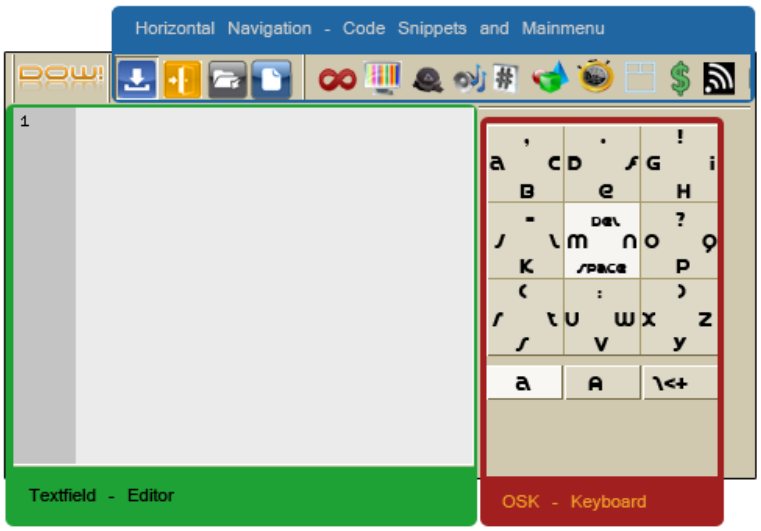
On the walk, on the ride, for killing time easy developing a smart PSP application?
- Dow! 0.2 makes it possible!

Here's the Instructions!



You can switch through the 3 different coloured sections via the START-Button of your PSP:
-the horizontal navigation
-the OSK
-the Editor

The OSK:
The OSK is the keyboard of Dow!.While being in OSK-mode you can switch through 3 different tables containing different symbols (small letter,capital letters,special symbols). Via the D-pad you can move to the different fields. Writing happens by pressing Cross, Circle,Triangle or Square.

The Editor:
Scroll through the lines by pressing Up/Down. Scroll horizontal by pressing Right/Left.

The horizontal navigation:
The horizontal navigation contains the Mainmenu as well as the many different codesnippets. By pressing Right/Left you can navigate through the horizontal menu. By pressing Up/Down you can navigate through the belonging submenu options. The pertinent action happens by pressing Cross.
